TALK IS PRETTY CHEAP

But on Election Day It Takes Votes
to Count.

Interview with Cleveland—Blaine
Headlines—Democratic Circular
—A Proclamation—Betting—
Political Notes.

BUFFALO, N. Y., Nov. 4.—Cleveland arrived here at 7:25 Monday morning. There was no demonstration, as he was not expected until evening. On his arrival the Governor proposed once more to have him then called to his office where he made his morning toilet. Before he was half dressed a large number, who had just heard of his arrival, crowded the stairway leading to his room, intent on shaking him, and saying good morning. Governor passed over Monday evening, visiting old friends, and resting from the fatigues of his recent exertions. He looks well and says he feels as well as he looks. While he says little on the political situation outside, he has no fears to see the result of his election.

A representative of the United Press succeeded in obtaining admittance to the Governor's room, and was accorded a short interview. The Governor said: "I think it is a general situation. I think it is very good. The other side will use money for it if it is worth, and desperate efforts will be used to buy up the vote of New Jersey and Connecticut. I do not believe they can do it."

"Hendricks has never lost his State. His popularity is as great as ever. He should be satisfied Indiana will be all right."

Local antagonism in the party is alayed. The election of 1876 will be forgotten, but don't believe in Star Route business will capture that State this time.

There is a strong feeling in the West on the subject of an honest administration, and the Democracy hold to the issue very strongly. They are determined to give the country a fair fighting chance of carrying Wisconsin. Several Michigan men tell me our prospects in that State is excellent. It is by no means certain, though, that we shall be beaten in Massachusetts, though Mr. Blaine's candidacy complicates matters there.

The issue of honest government has the strongest kind of support in that State, especially among the young men."

It is a question whether there is a diversion in the South like it was in 1877?

"It is possible, and there have been indications that such an attempt will be made to defeat the will of the people. I don't think it is likely, but it is tried."

"How is Blaine doing? Is he in support of his ticket?"

"Blaine has repeatedly assured me in an earnest way that I cannot question that he is sincere in his desire to give the Nation a quiet and peaceful election. He will support all the support the power of the Government can give him."

"Is he disposed to knife the ticket he could suit in silence or talk in a supporting manner?"

"He has reluctantly denied any intention to let his opponent and said: 'They ought to let a man cast one vote for himself. Don't you think he ought to know what kind of a fellow his candidate is, if any one does?'

He laughingly denied any intention to let his opponent and said: "They ought to let a man cast one vote for himself. Don't you think he ought to know what kind of a fellow his candidate is, if any one does?"

Mr. Powers and the Tariff.

"They are charging me with being a 'free trader.' That is false and Mr. Wadsworth and his friends know it. I stand by the Democratic platform which gives no uncertain sound as to tariff." FRANK POWERS.

That is what Mr. Powers writes with his own hand, and that is where the BULLETIN placed him, and by his authority. He does not mean that he shall be misunderstood, and to that end has made his meaning so plain that anybody can comprehend it. Any man who puts him in a position respecting the tariff not in accord with the National Democratic platform misrepresents him.

Candid Support Him.

The following letter has been addressed to Mr. Wadsworth by Mr. Charles F. Taylor, one of the leading citizens of this county:

"MAYSVILLE, KY., Oct. 18, 1884.

"Hon. W. H. Wadsworth: Having told you I was not for you yesterday, I now want to say that I am for you. I cannot support a man who is affiliated with the party that supports negro United States Deputy Marshals to shoot down peaceful citizens in the exercise of their legal rights, as in Ohio on Tuesday last."

That "Conversation."

MAYSVILLE, KY., October 11, 1884.

"In view of the promises which we made with Mr. Frank Powers he has written to me that he would vote for the Morrison Bill if elected, and said nothing in the course of the conversation which, in our judgment, should be construed into any other than a strict accordance with the Democratic platform of 1880. We were with him in his efforts to secure a reduction of the tariff, having no idea of 'free trade,' which neither of us favor. Our understanding of his favoring a large reduction of the tariff was that he wished the large surplus of revenue to be treated, at the same time equalizing the inequalities of the present law."

THE PROOF

That W. H. Wadsworth, Republican candidate for Congress, Did Not Vote For Asbury;

STATE OF KENTUCKY,)
MASON COUNTY,)
Set.

I, W. W. Ball, Clerk of the County Court, for the county as aforesaid, do certify that at an election held on August 6, 1883, in Mason County, Ky., W. H. Wadsworth, was voted for and elected S. F. Fry, for Lieutenant-Governor; for L. C. Garrigues, for Attorney-General; for L. R. Hawthorne, for Auditor; for Edward Farley, for Treasurer; for J. P. Pinkerton, for Comptroller; for John G. Johnson, for Register of the Land Office; he did not vote, and for Representative he voted for A. A. Wadsworth, all of which is shown by the poll books of said election, for said county, on file in my office.

Gives under my hand this 27th day of September, 1884.
W. W. BALL,
Clerk Mason County County.

MAYSVILLE, KY., October 29, 1884.

I was present a. the polls in precinct No. 2, Mason County, Ky., said without two test of W. H. Wadsworth, Sr., when he handed his ballot to James Chamberlain, judge of election precinct, who called out of the crowd in a loud, audience, "I'm voting for W. H. Wadsworth, and he did not vote for Asbury." It was noted and noted at the time and commented upon by the bystanders.

INDIANA is confidently reported safe for the Democrats.

CALIFORNIA and Oregon are expected to give their electoral votes to Cleve-land.

The Democratic majority in this Congressional district at the judicial election in August last was 645.

The latest report class Colorado, Massachusetts, New Hampshire and Wisconsin as doubtful states, but more likely to go for Blaine than Cleveland.

Mr. ROBINSON, the Governor of Massachusetts, takes time by the forelock and forestalls the effect of a Blaine defeat by issuing his Thanksgiving proclamation.

At the request of Sheriff Hawkins, of Hamilton County, the Governor of Ohio has placed the militia at his disposal if it shall be necessary to maintain order and uphold the law.

With six Presidential Richmonds and Richmondesses in the field, it might be worse, after all. Only two of them are introduced as the next President. In four or five months, perhaps, not even one will be so introduced.

The National Democratic Executive Committee confidently claims the votes of New York, Indiana, New Jersey and Connecticut, and possibly three other Northern States with the entire Southern vote.

The Democratic parade in New York, on Saturday evening, was the largest that ever took place in this country. Not less than 100,000 men were in line. There is no doubt of the electoral vote of New York being cast for Cleveland.

THE COURIER-JOURNAL says: Looking over the whole field we see nothing to discourage Democrats. The last days of the canvass have been the best days. Instead of losing ground at the close, as in 1880, we have gained steadily at every doubtful point since the October election. All that we need now is to cast and to count the Democratic votes.

There is a newspaper published under the title of El Correo de las Doce (The Noonday Mail). It is printed mostly in Spanish, but has from two to three columns of English matter in each issue.

It is printed in Mexico City, with the vernacular are aiming if not editing and instructing. I give you here with a few clippings from the columns of this extraordinary journal, extracts that will give you some idea of what a full fledged Mexican is capable of when he falls into "politic well," like Mr. Wiggin, & Boffin's Bowe-fame—but the Queen's English.

"A child has escaped death from the effects of a bottle of laudanum, the contents of which he was knowing, of course, what he did, thanks to the energetic efforts of his polks."

"A string around the neck and upon a heap of ashes, the corpse of an infant was buried at the foot of Guatemala."—Dostores Diccionario Obrero y Academico Aquino are in the way of France, where to the Government has sent them to finish their career."

"It is truly worth praising the admirable precision that exhibits at the stage the little girls. Mata Arnott now playing at the Teatro Principal."

KILLED FOR MONEY.
Morris Condon's Terrible Encounter with a Highwayman.

INDIANAPOLIS, Ind., Nov. 4.—Shortly after 10 o'clock yesterday morning, as Morris Condon, an employee of the Illinois, Michigan and Western Railroad, was emerging from the bridge over White River, in the western part of the city, he was approached by a man who commanded him to give up his money. He refused, and as he started to run, the highwayman shot him in the back below the right shoulder, and was evidently fired at close range. Condon stumbled and fell, and another bullet entered his left side, and still another struck him on the side, inflicting a slight wound. Condon staggered to a saloon, a distance of one hundred yards or more, and collapsed. The pistol was close to him when his shirt was powder burned by the discharge. The doctors say he can not live, and only his extraordinary vitality has allowed him to live so long. The author of the crime was not known, but several attacks have been made on the street recently, late at night, one of them resulting in the murder of a passenger and, as in these cases, there is no clue.

THE DAILY BULLETIN.
TUESDAY EVE., NOVEMBER 4, 1884.

The issue is joined,
And hot as "tater,"
But, as to result,
We will see you later.

CIRCUIT Court will begin again to-morrow.

There's many a sp'nt 'twixt the bet and the hat.

The supply of coal in Maysville is getting very low.

See notice elsewhere of a pair of mules, wagon and harness for sale.

The announcement of Dan. Mans, as a candidate for City Marshal, appears elsewhere.

Our local columns have been sadly neglected but we promise to do better hereafter.

The business men of Maysville are looking for an improvement in trade after the election is over.

The indications are that the largest vote ever cast in the two Maysville precincts will be polled to day.

Haucke's band was employed by the Democrats to-day, and it is on the streets helping the band along.

John Dulay, agent for American and Sun fire insurance companies, has some handsome election cards for free distribution.

Eastern capitalists are going to establish a creamery in Winchester with a capacity of five hundred pounds of butter per day.

Bon. S. Rossou, who has just returned from Indiana, says that that State is safe for the Democrats as Kentucky is.

If the price of printing paper is elevated from 25 to 50 cents, as is threatened, we penny daily chaps will have to stand under.

The election at Aberdeen to-day is passing off quietly. The indications are that as large a vote will be cast as was polled in October.

DEMOCRATS should not be discouraged if the first returns are unfavorable, as the Associated Press will doubtless send Republican gains first.

A large crowd of people from the country were in Maysville yesterday to attend the Wild West exhibition. They were much disappointed.

The new opera house is expected to be completed by the latter part of December. Mr. Cobb, the architect, was here last week inspecting the work.

The election in Maysville is passing off quietly to-day. Both parties are working hard but thus far there has been no unpleasant occurrence anywhere in the city.

When you have voted go away from the polls. To poll the full vote of the city it is necessary there should be no delay in voting or interruption of any kind.

Mr. C. F. Zweigart has laid a fine freestone pavement in front of his new building at the corner of Second and Sutton streets. The work was done by Mr. S. J. Daugherty.

A GENTLEMAN in Montana, a reader of the BULLETIN, has sent to Mr. H. Lange, of this city, for a Rockford watch which he saw advertised in its columns. This shows the advantages of advertising.

The meetings in Market Square and at the court house last night were largely attended and passed of quietly. Hon. B. S. Robbins addressed the Democrats and Mr. Wadsworth the Republicans.

The voting at both polls in this city, this morning, began at a very lively rate and about one hundred votes an hour were recorded. It will take all the time required by law to poll the full vote of the city.

In alteration at Mt. Sterling, on Saturday, between Sam. Everett, Jr., and Bob Howell, the latter colored, and the former a well known and highly connected citizen, both men were cut and dangerously wounded.

We do not know that Mr. Wadsworth has personally begged money to be used in this canvass, and we did not intend to say so yesterday. The paragraph ought to have read "Mr. Wadsworth, through his friends, begged money." The words "through his friends" were accidentally omitted, and the omission was not noticed until the BULLETIN had gone to press. We make this correction voluntarily because we do not wish to do Mr. Wadsworth the slightest injustice.

Paste This Up in Your Hat.

Hay in the stack may be measured, an agricultural paper says, by the following process: For timothy, square the diameter, multiply by eight, and that product by the height of the stack, reckoning up one third of the distance from where it begins to taper off, to the top of the apex; cut off the right hand figure and divide by 75; the result will be in tons. Should there be a remainder, multiply by 2,000, and divide by 75; the quotient will be pounds. For clover hay, square the diameter, multiply by the height of the stack, as for timothy, and that product by seven; cut off the third right hand figures at once; the rest will be tons; then multiply the figures upon the right by 2,000, cut off three from the right, and all on the left will be pounds.

The Crops This Year.

The United States crop report for October shows: Corn shows a higher average than at any time for five years, but not so high as the remarkable corn years 1875 to 1879. The general average is 93.

It indicates 26 bushels per acre, on 70,000,000 acres. Wheat will exceed last year by about 100,000,000 bushels.

Threshing is slow and late. Average condition everywhere is 96. Oats will make a crop of about 570,000,000 bushels.

A CORDUROY road laid in 1860 was unearthed at Schenectady, New York, to indicate the road lay under the surface in a well preserved state.

THE LONDON TIMES ignorantly asserts the majority of the people of the United States regard the coming election with indifference.

A HANNIBAL passenger train bound for St. Joe, Missouri, struck a broken rail at Lake River bridge and one car was ditched, injuring seven persons.

A LLEN, a clerk in the office of the Freeholders, was arrested upon a charge of treason, one dispatch states, and another that he is arrested for murder conspiracy.

THE ASSOCIATE Producers are a new monopoly with headquarters at Buffalo, N. Y. They have bought the Mexican and the other most producing territory in the dried fruit fields.

The INFANTRY Hussar band paid its respects to Lititz, a Pennsylvania village, ruling several houses, mills and stores, and posse of citizens are in pursuit. The gamblers numbers ten men, all mounted and well armed.

The ROYAL Hussar band paid its respects to Priscilla Huntly, the youngest child of William Edwards, Grove House, Con. Wm. Averton, Gloucester, England, the family estate.

THE sailing race on Croce Lake, St. Louis, Sunday, between Teaser and Tealaur, three miles and turn, resulted in Teaser's victory. Tealaur, with water, Teaser was in advance to the turn, and the turn was made together. Fully \$30,000 was up the race. The looker looked so suspicious that the referee, while he gave the race to Tealaur, said he would not be satisfied.

As exciting a scene occurred in the Conference of the Methodists for Southwest Texas at San Antonio, Sunday, Dr. Kelly charged criminal neglect against the district officers for not collecting the missionary money. Rev. Joyce said that Rev. Kelly said Rev. Gravie said the people were confident about whether the country needs Republican element and entertains his patrons with a princely style. He has, in fact, done more for the country than any man in America.

The Jug and the Jar.

Jug and a jar which found themselves on a shelf together began to plume themselves on their merits.

"I cost thirty-eight cents," observed the jug.

"A! my owner walked ten miles to get me," replied the jar.

"I hold two gallons of water."

"And I am nearly always filled with milk."

"My master takes me to the hay-field and gives me the shafted spot."

"And the women carry me in their arms up and down the cellar stairs."

They were still disputing when the Peasant's wife entered the room and said to herself:

BOSTON Ducks and Geese in Gotham, (New York Journal)

"Yes, ma'm those are Boston ducks and have all the culture that can possibly be stuffed into them," said Mr. Julius Jacob, of Central Market, which is located in New York's most discriminating aristocracy.

"The price is twenty-six cents per pound, but in order to get these Massachusetts fowls we ship them to this city, we must offer big prices, and I can assure you that the Boston duck is about off half a barrel of the Bostonians. The same is true of geese. Now, there you see the celebrated Boston green geese. Of course they eat like a first-class watermelon; but the price, twenty-six cents, places them where there is no money in them.

THE QUIET at Winnsboro, (Ala.)

WINSLOW, November 4, 1884.—General Miller did not leave town Friday night as was reported. He drove about the outskirts of the city and returned to his house about 2 o'clock. Yesterday morning his house was visited by a mob, but no violence was done, as it is the custom in this city for a mob to gather around a garnished by an armful amount of goods, who stood behind the door and at the windows with carbines, holding thirteen cartridges, ready to fire the instant any shot was fired. There was a bloody struggle, and it was believed that the broken jail. All is quiet and Miller remained at the Government building day.

"The price is twenty-six cents per pound, but in order to get these Massachusetts fowls we ship them to this city, we must offer big prices, and I can assure you that the Boston duck is about off half a barrel of the Bostonians. The same is true of geese. Now, there you see the celebrated Boston green geese. Of course they eat like a first-class watermelon; but the price, twenty-six cents, places them where there is no money in them.

BUTCHERY OF NEGROES

Details of the Riots at a Texas Political Meeting.

Resulting in Sixteen to Twenty Being Killed—A Cold-Blooded and Fiendish Butchery at New Orleans, Louisiana.

New York, Nov. 4.—A special from New Orleans to the Herald (Dom) says: A New Iberia dispatch says: Everything is quiet since the Fauns Point trouble Saturday. The prisoners are still in jail, and will probably have a hearing to-day. A great many reports have come in from Fauns Point, nearly all differently as to the number of killed and wounded. Coroner Manville, who came in late Sunday evening, says that sixteen negroes and two white men were killed. He ordered a jury and will hold an inquest to-morrow.

All who were in the fight when it began say the first shot came from a negro who fired from his coat pocket at Joe Gilfoyle.

Bell and Gilfoyle were killed instantly at the first shot.

The negro taken from the bodies showed that they had not fired a shot when they fell. They were two of Fauns Point's most respectable and beloved citizens. Their friends present, consisting of six or eight men, went to inform the coroner that the negroes were wounded but not yet dead; others ran, and some fell down on the way and died.

One negro was found near by, in his cabin, dead, without a bruise on him.

It is still unknown how many were killed, and whether any of them sixteen or twenty were lost. Nearly all of those killed received their wounds from stray shots. Captain Bell was buried Sunday from St. Martinville, and Joe Gilfoyle from Lorensville. No further trouble is expected.

Butchered by a Friend.

NEW ORLEANS, La., Nov. 4.—Edward Gardner, Master Carpenter of the New Orleans City Laundry, Fontenot and Gardner, was killed yesterday by John Duffy, in a street duel. Duffy was formerly in the employ of the railroad company, working under Gardner, but was dismissed by him, so that now he has no trade. The feeling between them has been very unfriendly. At 5 o'clock yesterday morning Duffy sent a challenge to the round house of the railroad company, calling upon Gardner, if he was a man, to come out and meet him at the corner of Second and Broad streets. Gardner armed himself with a pistol and accompanied by three seconds, went to the point named. Here he met Duffy and his friends. Duffy invited a fight, which suddenly drawing out a large butcher knife, leaped upon his antagonist. Gardner slipped when Duffy jumped on him and began slashing and stinging him. He went about this work in the most deliberate and leisurely manner, as though it were a game to strike at; and after a careful survey of his prostrate antagonist, down would go his knife into the body, and it would be taken out dripping in blood. There was a large crowd of spectators watching on, and the knife was hard to reach. Gardner, Duffy stabbed him altogether twenty-one times. He did not escape until a Sister of Charity, who was passing, came to the relief of the wounded man, and when he rose again slowly away. It was then found that Gardner was fatally wounded in a number of places. The body was so horribly mutilated that one of the coroner's jury fainted away at the sight of it.

NO MORE POKER FOR IOWA.

Major James H. Wason, Who Gambled with Government Money.

WASHINGTON, Nov. 4.—The President has accepted the resignation of Major James H. Wason, who was granted a leave of absence to restore him to citizenship. His term would have expired Monday.

June 26, 1888, Major Wason was sentenced to dismissal from the army, to be imprisoned eight years, and to have his pay stopped and to have his cause of his punishment published at length in the newspapers of Iowa, the State from which he was appointed. His offense was gambling with the Government's money, and he was sentenced by the Secretary of War upon the finding of the court-martial, and was approved by the President. It was intended to give army officers a severe lesson against the violation of the regulations as to gambling.

Wason was born in 1846 in Iow. Having resigned from the army soon after graduation, he became a Professor of Mathematics in a Japanese college. He afterward attained the position of Chief Engineer in the Chinese navy, and was sent to China to render services in the Formosa campaign. Before returning to this country he was made Professor of Civil Engineering at the Imperial University of Tokyo. In 1876 he was appointed to the Bureau of Manufactures of the U. S. army, and for five or six years he was stationed in Texas. It was discovered that he had stolen nearly \$6,000 of the Government's money which had been placed in his hands, and he tried to account for the debt by saying that he had lost it at the pool. He subsequently made a full confession. It was the old story—money lost gambling, small sums at first, followed by greater. The army regulations forbade a discharging officer to "lose funds or money of hazard," even with his own money.

It was said that Maj. Wason divulged the names of all the gentlemen who had played cards with him, and that Chief-Paymaster Terrell addressed a committee to each one, threatening exposure unless the winnings were returned. One gentleman, who had only won about \$300, was induced to give up \$1,000 for fear of his playing cards becoming known to the public. Some few refused to give back what they had won, and others claimed that they were lost in the game. However, the necessary amount of money was raised.
